

## M70 BEVELLED SYSTEM

**The classic choice for homeowners**

Achieves A++ rating requirements

Official Police Security Initiative

# FOR A PERFECT MATCH THROUGHOUT YOUR HOME

With its clean bevelled lines Matrix 70 gives a classic yet contemporary look to all properties. As one of the most widely specified systems today, it offers the flexibility to create virtually any style or design of window or door.

The VEKA UK Group have pioneered the design and manufacture of window and door systems for over 30 years. With a continual investment in the profile systems it is now one of the most technically advanced on the market. A 10 year guarantee on all products, gives the added confidence that once fitted VEKA products will last for many years. Just a few of the many reasons VEKA is now one of the most specified uPVC systems in the world.

## Why choose the Matrix 70 bevelled window system?

### For enhanced security

Matrix 70 is a fully integrated multi-chambered, bevelled 70mm system with steel reinforcement sections. All of our windows and doors are fitted with the market leading security hardware incorporating shootbolts or hook locks. It only takes a simple upgrade to meet the Secured by Design specification for the ultimate deterrent to intruders.

### Ease of maintenance

Life is too short to be sanding and painting timber window frames, or even the older PVC frames still require some effort. Matrix 70 makes this so much easier... all it takes is a simple wipe with a soapy cloth. No mess and definitely no fuss.

### For a perfect match

Whether it's the traditional front and back door, french double doors, in-line patio, tilt & slide, composite doors or bi-folding doors, you can enjoy the looks, security and weather resistance to perfectly match your bevelled windows.

For the best  
profile...  
anywhere

## Design

- Featuring classic bevelled good looks to suit any style of property.
- Fully integrated, multi-chambered, bevelled 70mm system with steel and aluminium reinforcement sections.
- Can be used to create virtually any style of window or door, tilt and turn, casement, residential doors, french doors and many others.
- Foam thermal inserts and triple glazed option.
- Galvanised steel reinforcements.

## Glazing

- An A++ energy rating can be achieved by upgrading to 40mm or 44mm triple glazed sealed unit. Thermal enhancements can be used to achieve a u-value of 0.8 for the passivhaus requirement.

## Fittings

- We have a great range of hardware that will stand the test of time and properties. Available in white, bright chrome, satin chrome, bright bronze, graphite, gold, black and antique black, all supplied with a 10 year guarantee.

## Colours

- VEKA offer a fantastic range of plain colours and woodgrains to offer individual solutions to suit all tastes.
- Foils can be applied to one side or two and different colours can even be specified for the inside and out.

## COLOUR CHOICES

*All VEKA profiles are available in 18 colour variations. Please note, colours shown below are for guidance only and should not be used as a direct colour match.*

### SECURED BY DESIGN EXPLAINED

Secured by Design was established in 1989 and is owned by the ACPO (Association of Chief Police Officers). It's now the police preferred standard focusing on crime prevention of homes and commercial premises.

In areas where the principles have been adopted crime has reduced by up to 75%.

### ASSURE ENERGY RATINGS REGISTER EXPLAINED

The Assure Energy ratings scheme is used to give your windows a Windows Energy Rating (WER) in alignment with the "traffic light" system used in all domestic appliances.

A++ is the highest rating, which can be achieved on our M70 bevelled system.
